

DAY 1 – WEDNESDAY SEPTEMBER 4, 2019

Registration							
11:00–18:00	EMERGENCY/CRITICAL CARE	GASTROENTEROLOGY	SOFT TISSUE SURGERY	BEHAVIOUR/RADIOLOGY	NEUROLOGY	ENDOCRINOLOGY	CARDIOLOGY
14:00–14:45	Common emergency room procedures you must know! <i>Justine Lee</i>	How to diagnose intestinal obstruction in dogs <i>Lorrie Gaschen</i>	Persuasion, perfusion and pedicles: Choosing a reconstructive technique <i>Bryden Stanley</i>	Canine aggression directed towards people: When the bite is worse than the bark <i>Kersti Seksel</i>	The ultimate guide to clinical reasoning in neurology <i>Holger Volk</i>	Diagnosis and management of canine hypothyroidism <i>David Bruyette</i>	Approach to the old, small dog with a murmur <i>Virginia Luis-Fuentes</i>
14:45–14:50	Break						
14:50–15:35	Common mistakes to avoid in the ER <i>Justine Lee</i>	Rational approach to refractory diarrhoea in dogs and cats: Part 1 <i>Stanley Marks</i>	Interactive session on wounds and cutaneous reconstruction <i>Bryden Stanley</i>	Canine aggression directed towards dogs outside the home; including leash reactivity <i>Kersti Seksel</i>	Rock, turn & roll: Diagnosis and management of vestibular diseases <i>Holger Volk</i>	Diagnosis and management of feline hyperthyroidism <i>David Bruyette</i>	Approach to the dog with an arrhythmia <i>Virginia Luis-Fuentes</i>
15:35–16:15	Coffee-break						
16:15–17:00	Act FAST: Emergency stabilization of the polytrauma patient <i>Erica Reineke</i>	Rational approach to refractory diarrhoea in dogs and cats: Part 2 <i>Stanley Marks</i>	Anal sacculotomy: A novel approach <i>Howard Seim</i>	How I diagnose airway collapse in dogs radiographically <i>Lorrie Gaschen</i> Tips and tricks in abdominal radiography <i>Klavdiya Naletova</i>	An update on epilepsy and its comorbidities <i>Holger Volk</i>	Hypercalcaemia in dogs and cats: Diagnosis and management <i>Dennis Chew</i>	Approach to the dog or cat with syncope <i>Virginia Luis-Fuentes</i>
17:10–18:10	Opening Ceremony						
18:10–20:00	Welcome Reception						

DAY 2 – THURSDAY SEPTEMBER 5, 2019

09:30–10:15	EMERGENCY/CRITICAL CARE	GASTROENTEROLOGY	SOFT TISSUE SURGERY	RESPIRATORY	NEUROLOGY/NEPHROLOGY	ENDOCRINOLOGY	EXOTIC ANIMAL MEDICINE	FECAVA SYMPOSIUM ON CANINE VECTOR BORNE DISEASES
09:30–10:15	Fluid therapy in the ER <i>Erica Reineke</i>	Update on the management of protozoal diarrhoea in cats (<i>Giardia</i> , <i>Tritrichomonas</i> , <i>Isospora</i>) <i>Michael Lappin</i>	Peritonitis: Decision-making time <i>Bryden Stanley</i>	Respiratory distress in dogs and cats: Thoracic radiography <i>Lorrie Gaschen</i>	Unremitting seizures: Management of cluster seizures and status epilepticus <i>Holger Volk</i>	Aetiology and diagnosis of canine hyperadrenocorticism <i>David Bruyette</i>	Solving 50% of the problem: Key role of UVB light in exotic animal medicine <i>Mark Mitchell</i>	The immunology of vector-borne infectious disease: pathogenesis, clinical mimicry and diagnosis <i>Emeritus Professor Michael J. Day</i>
10:15–10:20	Break							
10:20–11:05	Traumatic brain injury <i>Erica Reineke</i>	A rational approach to chronic vomiting <i>Stanley Marks</i>	Intestinal anastomosis: Tips to make it easier <i>Howard Seim</i>	The coughing dog: How to get a radiographic diagnosis <i>Lorrie Gaschen</i>	No need to panic: Stress-free management of spinal emergencies <i>Holger Volk</i>	Management options for canine hyperadrenocorticism <i>David Bruyette</i>	Nutritional intelligence: An absolute essential for the reptile clinician <i>Mark Mitchell</i>	HW disease and subcutaneous dirofilariosis of the dog – from diagnosis to therapy <i>Luigi Venco</i>
11:05–11:45	Coffee-break							
11:45–12:30	Top 20 poisons affecting dogs and cats: Part 1 <i>Justine Lee</i>	The latest on acute pancreatitis in dogs <i>David Twedt</i>	Wound dehiscence: What to do <i>Bryden Stanley</i>	Is it heart or lung disease? <i>Lynelle Johnson</i>	Chronic kidney disease: Diagnosis and initial management: Part 1 <i>Dennis Chew</i>	An update on managing the diabetic patient in the 21 st century: Part 1 <i>David Church</i>	Exotic pet emergencies: What every vet should know <i>Manfred Hochleithner</i>	Babesiosis in dogs – update on pathogenesis, treatment and prevention <i>Gad Baneth</i>
12:30–12:35	Break							
12:35–13:20	Top 20 poisons affecting dogs and cats: Part 2 <i>Justine Lee</i>	Canine and feline exocrine pancreatic insufficiency: More common than you think! <i>Stanley Marks</i>	Pain management: The practical and the promising: Understanding opioids and NSAIDs <i>Jill Maddison</i>	Chronic cough In dogs <i>Lynelle Johnson</i>	Chronic kidney disease: Further management: Part 2 <i>Dennis Chew</i>	An update on managing the diabetic patient in the 21 st century: Part 2 <i>David Church</i>	Slippery when wet: Managing ornamental fish in practice <i>Mark Mitchell</i>	Canine leishmaniosis – diagnosis, treatment and prevention <i>Gad Baneth</i>
13:20–14:50	Lunch							
14:50–15:35	EMERGENCY/CRITICAL CARE	GASTROENTEROLOGY	OPHTHALMOLOGY	NEPHROLOGY/UROLOGY	ENDOCRINOLOGY	CARDIOLOGY	EXOTIC ANIMAL MEDICINE	
14:50–15:35	Anaesthesia & analgesia for emergency and critical care patients <i>Tamara Grubb</i>	Surgical management of gastric dilation and volvulus <i>Howard Seim</i>	Doing a great fundic exam and interpreting lesions <i>David Maggs</i>	Idiopathic/Interstitial cystitis in cats: Diagnosis and management <i>Dennis Chew</i>	"Masha" (Goldilocks) prednisolone dosing for immune-mediated disease: Not too much, not too little, just right! <i>David Church</i>	Approach to acquired feline heart disease <i>Virginia Luis-Fuentes</i>	Getting to the bottom of diseases involving exotic excretory systems <i>Mark Mitchell</i>	
15:35–15:40	Break							
15:40–16:25	Geriatric onset laryngeal paralysis: An update <i>Bryden Stanley</i>	Abnormal liver enzymes: A clinical approach <i>David Twedt</i>	Managing non-healing corneal ulcers <i>David Maggs</i>	Feline communication: What does spraying mean? How's it best managed? <i>Kersti Seksel</i>	A logical approach to the polydipsic patient <i>David Church</i>	Approach to the cat with respiratory distress <i>Virginia Luis-Fuentes</i>	Diagnostic procedures in birds, reptiles and small mammals: How to get your sample and how to use it <i>Manfred Hochleithner</i>	
16:25–17:05	Coffee-break							
17:05–17:50	Emergency approach to respiratory distress <i>Erica Reineke</i>	Chronic hepatitis in dogs: The latest updates <i>David Twedt</i>	How I remove luxated lenses from the anterior chamber <i>Alexey Shikin</i> Diagnosing glaucoma: Any news? <i>Alexander Konstantinovskiy</i>	Surgical management of canine cystic and urethral calculi <i>Howard Seim</i>	A logical approach to the patient with weakness <i>David Church</i>	What goes up, must come down: Treating intraoperative hypotension <i>Tamara Grubb</i>	My rabbit's urine is red: What do I do now? <i>Karen Rosenthal</i> Fungal disease of reptiles at the Moscow Zoo (including <i>Chrysosporium</i>) <i>Dmitri Vasiliev</i>	

DAY 3 – FRIDAY SEPTEMBER 6, 2019

09:30–10:15	ECC/DERMATOLOGY	GASTROENTEROLOGY	OPHTHALMOLOGY	ORTHOPAEDIC SURGERY	UROLOGY	PRACTICE MANAGEMENT	AVIAN MEDICINE
09:30–10:15	Disaster diabetics: Managing DKA <i>Erica Reineke</i>	Update on feline liver disease <i>David Twedt</i>	This patient's eye is red: What should I do next? <i>David Maggs</i>	The orthopaedic exam: How to reach a diagnosis in 10 minutes or less! <i>Brian Beale</i>	Urinary tract ultrasonography in dogs and cats <i>Lorrie Gaschen</i>	The sources of turnover haemorrhage <i>Brian Faulkner</i>	Birds: Here's what you need to know on day 1 of practice <i>Karen Rosenthal</i>
10:15–10:20	Break						
10:20–11:05	Critical care for canine parvovirus <i>Justine Lee</i>	Acute liver disease <i>David Twedt</i>	Feline herpesvirus: Syndromes, diagnostics, control and therapy <i>David Maggs</i>	Tips and tricks on stifle approach, meniscal evaluation and treatment <i>Michael Kowaleski</i>	Feline perineal urethrostomy: A novel approach <i>Howard Seim</i>	The veterinary consultation: Part 1 <i>Brian Faulkner</i>	There's more to anaesthesia than passing gas: Anaesthetic considerations for exotic pets <i>Mark Mitchell</i>
11:05–11:45	Coffee-break						
11:45–12:30	Cytology, THE derm test! and cats? <i>Craig Griffin</i>	Probiotics: What's the evidence for their benefit in diarrhoeic dogs and cats? <i>Stanley Marks</i>	Eyelid surgery in the Dog <i>David Maggs</i>	How to succeed in repairing medial patellar luxations in dogs and cats <i>Brian Beale</i>	Feline urethral obstruction: Emergency stabilization and treatment <i>Erica Reineke</i>	The veterinary consultation: Part 2 <i>Brian Faulkner</i>	How to understand what the avian CBC/chemistry is telling us <i>Karen Rosenthal</i>
12:30–12:35	Break						
12:35–13:20	Check skin, itchy again! <i>Craig Griffin</i>	Feline pancreatitis <i>David Twedt</i>	What's new in ocular pharmacology? <i>David Maggs</i>	Early diagnosis of CrCL disease: What would you do if it was your dog? <i>Michael Kowaleski</i>	Bacterial urinary tract infections in dogs: Diagnosis and high dose/short duration treatment <i>Dennis Chew</i>	The veterinary reception team <i>Brian Faulkner</i>	Avian clinical medicine: How imaging can guide therapy <i>Karen Rosenthal</i>
13:20–14:50	Lunch						
14:50–15:35	DERMATOLOGY	DENTISTRY	RESPIRATORY	ORTHOPAEDIC SURGERY	THERIOGENOLOGY	PRACTICE MANAGEMENT	EXOTIC ANIMAL MEDICINE
14:50–15:35	Bacterial pyoderma in the dog: What works; what has changed? <i>Ralf Müller</i>	Clinically important skull and tooth anatomy <i>Cindy Charlier</i>	Does this cat have asthma or bronchitis? <i>Lynelle Johnson</i>	How I treat small breed dog and cat CrCL disease <i>Michael Kowaleski</i>	Reproduction and the male dog <i>Angelika von Heimendahl</i>	Working as a team to get the bill paid <i>Brian Faulkner</i>	Seeing around the shadows: Understanding small mammal radiographs <i>Karen Rosenthal</i>
15:35–15:40	Break						
15:40–16:25	It looks endocrine but it's not! <i>Craig Griffin</i>	Top 3 oral problems in dogs: How to diagnose and manage them <i>Jerzy Gawor</i>	Addressing chronic nasal discharge in dogs <i>Lynelle Johnson</i>	Arthrodesis: Keys to saving the limb and a successful outcome <i>Brian Beale</i>	Progesterone testing and mating <i>Angelika von Heimendahl</i>	Your life and your career in veterinary practice: Is it going according to plan? <i>John Sheridan</i>	My rabbit is not eating: Here's how to figure out why <i>Karen Rosenthal</i>
16:25–17:05	Coffee-break						
17:05–17:50	How to diagnose food allergy: Any news? <i>Ralf Müller</i>	Orofacial injuries in cats suffering from high rise syndrome <i>Jerzy Gawor</i>	Tracheal collapse and bronchomalacia <i>Lynelle Johnson</i>	How I perform clinical examination of the hip <i>Michael Kowaleski</i> Our experience with KYON Zurich Cementless total hip replacement <i>Ilya Sereida</i>	Artificial insemination: What's going on and what should I know? <i>Angelika von Heimendahl</i>	Do you really need more clients or are you too busy to be profitable? <i>John Sheridan</i>	Cytology of non-effusion fluids <i>Rose Raskin</i>

DAY 4 – SATURDAY SEPTEMBER 7, 2019

09:30–10:15	DERMATOLOGY	DENTISTRY	ORTHOPAEDIC SURGERY	INFECTIOUS DISEASE	THERIOGENOLOGY	PRACTICE MANAGEMENT	ONCOLOGY
09:30–10:15	Treatment of atopic dermatitis <i>Ralf Müller</i>	Oral surgery to remove teeth in dogs <i>Cindy Charlier</i>	Joint disasters: How to avoid <i>Michael Kowaleski</i>	Management of upper respiratory infections in cats: Part 1 <i>Michael Lappin</i>	Anaesthesia and analgesia for Caesarean section <i>Tamara Grubb</i>	A strategy for practice growth, planning and management <i>John Sheridan</i>	Lymphoid neoplasia in dogs and cats: Diagnostic tools <i>Rose Raskin</i>
10:15–10:20	Break						
10:20–11:05	Otitis: Diagnostic tips <i>Craig Griffin</i>	Avoiding mistakes! Oral surgery to remove teeth in cats <i>Cindy Charlier</i>	Practical treatment of simple fractures <i>Brian Beale</i>	Management of upper respiratory infections in cats: Part 2 <i>Michael Lappin</i>	Caesarean section: When and how <i>Bryden Stanley</i>	Prepare to double your practice profits and the value of your business in just 12 months: Starting today <i>John Sheridan</i>	Concepts in practical veterinary chemotherapy <i>David Vail</i>
11:05–11:45	Coffee-break						
11:45–12:30	Otitis: Keys to successful therapy <i>Craig Griffin</i>	Complications of extractions <i>Cindy Charlier</i>	Practical treatment of comminuted fractures <i>Brian Beale</i>	How I use antibiotics to treat the top 20 infectious diseases of dogs and cats: Part 1 <i>Michael Lappin</i>	Contraception in domestic animals <i>Angelika von Heimendahl</i>	Convert your practice accounts into practical business tools for management <i>John Sheridan</i>	Practical diagnosis and management of lymphoma in dogs <i>David Vail</i>
12:30–12:35	Break						
12:35–13:20	Approach to alopecia <i>Ralf Müller</i>	Interpreting intraoral radiographs <i>Cindy Charlier</i>	Tips for successful fracture repair of the pelvis and hip <i>Brian Beale</i>	How I use antibiotics to treat the top 20 infectious diseases of dogs and cats: Part 2 <i>Michael Lappin</i>	When urine is like gold <i>Rose Raskin</i>	The hard work is done, now for the fun! How to plan and deliver a budget for Year 1 <i>John Sheridan</i>	Practical diagnosis and management of lymphoma in cats <i>David Vail</i>
13:20–14:50	Lunch						
14:50–15:35	DERMATOLOGY	DENTISTRY	ORTHOPAEDIC SURGERY	PHARMACOLOGY/INFECTIOUS DISEASE	RESPIRATORY	IMAGING	ONCOLOGY
14:50–15:35	Why and when? Apoquel, Atopica and Cytopoint <i>Craig Griffin</i>	What's YOUR diagnosis? Recognizing oral pathology in cats <i>Cindy Charlier</i>	Treatment of chronic pain in dogs: Beyond NSAIDs <i>Tamara Grubb</i>	Principles of pharmacology: Surprisingly clinically relevant! <i>Jill Maddison</i>	Cytologic evaluation of thoracic effusions <i>Rose Raskin</i>	Special sonographic features of the feline abdomen <i>Lorrie Gaschen</i>	Sarcomas of dogs and cats: When bone softens and soft tissues harden <i>David Vail</i>
15:35–15:40	Break						
15:40–16:25	Scaling disorders in dogs <i>Ralf Müller</i>	What's YOUR diagnosis? Recognizing oral pathology in dogs <i>Cindy Charlier</i>	Surgical management of juvenile hip dysplasia: A case-based approach <i>Michael Kowaleski</i>	Adverse drug reactions: Why they occur and how to avoid them <i>Jill Maddison</i>	Surgical management of brachycephalic syndrome <i>Howard Seim</i>	Obstructed or not? Interpretation of abdominal radiographs in vomiting cats <i>Lorrie Gaschen</i>	Paraneoplastic syndromes <i>David Vail</i>
16:25–17:05	Coffee-break						
17:05–17:50	Management of demodicosis <i>Ralf Müller</i>	Non-invasive stabilization of bilateral mandibular fracture in a dog <i>Anna Spirina</i> How I remove deciduous canine teeth in dogs <i>Cindy Charlier</i>	Elbow dysplasia: New treatment options <i>Michael Kowaleski</i>	How I diagnose borreliosis in dogs <i>Natalia Volgina</i> How I manage toxoplasmosis in cats <i>Michael Lappin</i>	Anaesthesia and analgesia for patients with upper airway dysfunction <i>Tamara Grubb</i>	Ultrasound of the stomach and duodenum <i>Lorrie Gaschen</i>	Mast cell tumours in dogs and cats <i>David Vail</i>
